LMS Replacement Timeline & Task Flow

From March to May 2014

1. Following survey, create rubric to include
   a. Features identified in survey as needed for LMS
      i. Including course designers and faculty/staff for online courses
   b. Include questions to determine
      i. Vendor history (length of time in business)
      ii. Tech support system
      iii. Cost analysis (including course conversions to new system)
   c. Send rubric and questions to vendors in advance of visit

2. Schedule visit in open forum with faculty, staff, and students
   a. Challenge with tasks from rubric
   b. Assess each vendor based on rubric
   c. Collect exit surveys

3. Hold open forum on LMS

4. Collect all data and present recommendation to IT and Global Campus requesting they bring new LMS online and run in parallel with Angel for three terms
